

245A.148 Family Child Care Diapering Area Disinfection.

Notwithstanding Minnesota Rules, part 9502.0435, a family child care provider may disinfect the diaper changing surface with chlorine bleach in a manner consistent with label directions for disinfection or with a surface disinfectant that meets the following criteria:

- (1) The manufacturer's label or instructions state that the product is registered with the United States Environmental Protection Agency;
- (2) The manufacturer's label or instructions state that the disinfectant is effective against *Staphylococcus aureus*, *Salmonella enterica*, and *Pseudomonas aeruginosa*;
- (3) The manufacturer's label or instructions state that the disinfectant is effective with a ten minute or less contact time;
- (4) The disinfectant is clearly labeled by the manufacturer with directions for mixing and use;
- (5) The disinfectant is used only in accordance with the manufacturer's directions; and
- (6) The product does not include triclosan or derivatives of triclosan.
